

STEP INTO THE POSSIBILITIES

GREEN LINE

Corridor Transit Study

RED LINE

Corridor Transit Study

The Maryland Transit Administration is considering new rapid transit service for the Baltimore region. The Red Line Corridor Transit Study will consider Light Rail, Metro Subway and Bus Rapid Transit for the area between Woodlawn/Social Security, downtown Baltimore and the Fells Point/Patterson Park area. The Green Line Corridor Transit Study will consider Metro Subway, Light Rail and Bus Rapid Transit for the area between Johns Hopkins Hospital and Northeast Baltimore near Morgan State University/Good Samaritan Hospital. You are invited to view and comment on the Red Line and Green Line alternatives being considered for study at any of the following meetings:
